THE LOS ANGELES METROPOLITAN AREA SURVEY

(LAMAS)

SURVEY RESEARCH CENTER, UNIVERSITY OF CALIFORNIA,
LOS ANGELES

THE LOS ANGELES METROPOLITAN AREA SURVEY (LAMAS)

The Los Angeles Metropolitan Area Survey, inaugurated in the spring of 1970, is a shared-time omnibus survey of Los Angeles County community members, usually repeated twice a year. LAMAS enables research investigators from universities, governmental agencies (at all levels), and research institutes to obtain data from a representative sample of 1,000 Los Angeles metropolitan area households (city and county) in a more efficient and economical fashion than is possible if each researcher conducts an independent survey.

The cost of participating in LAMAS is on a per question basis, as discussed below, and the contributing researcher receives the results pertaining to his specific questions, plus background data. Shared-time omnibus surveys are not only economical; by reducing the number of independent surveys in the field, they can help minimize the strains aroused in communities whose members feel they have been oversurveyed.

Although each survey is designed to meet the varied needs of contributing researchers, an important LAMAS goal is the development of a set of standard "community profile" measures appropriate for use in studies connected with the planning and evaluation of public policy and action programs. The social profile variables include attitudes and perceptions of living conditions in the neighborhood and of its program needs. A predominant theme in the Center's contribution to the instruments is the inclusion of indexes and scales for "tracking" the development and course of social indicators and the impact of public policy on the community. These social indicators, including social, psychological, health, and economic variables, permit measurement of social change at semiannual intervals and, thus, analysis of short-and long-term trends in the quality of life at the regional level. LAMAS provides an opportunity to investigate specific trends in both the city and Los Angeles County.

In addition to trend studies of attitudes and behaviors, LAMAS provides for panel studies of subsamples of the population. In such studies, the focus is on both probability and purposive construction of panels of respondents to permit more intensive exploration of key social problems than is possible either in a single survey or in analysis of trends in survey results.

USES OF LAMAS

The strength of LAMAS stems from its highly unclustered sample design and the varying types of areal aggregation such samples permit. Data from 100 sampling points in the county can be aggregated at the following levels:

1. Los Angeles County as a whole
2. The city of Los Angeles
3. Independent cities in Los Angeles County
4. Specialized subareas (e.g., county health districts, law enforcement reporting districts, hospital service areas, etc.)

Several studies conducted by the Survey Research Center have used LAMAS data for comparative purposes.

Model Neighborhood Survey. In the spring of 1971, the Center conducted a survey of the Willowbrook/Florence-Firestone communities for the Los Angeles County Model Neighborhood Agency. The survey was to provide baseline data on community conditions (e.g., employment, income, education, health, housing, crime, etc.) to permit assessment of the effects of Model Neighborhood programs after the five-year demonstration period. The same data were gathered from county residents (LAMAS III) to serve as a "control" for county-wide changes that might influence conditions in the model neighborhood independent of program effects. More important, county data were used to establish levels of relative deprivation suffered by model neighborhood residents as a result of their low-income and minority status. The data showed clear differences between county and model neighborhood residents in levels of income, education, employment and occupational status, and in their assessments of the quality of life. Even controlling for minority status (black and Mexican-American) within the county, some differences remain which suggest particular effects of residence in the model neighborhood area (South Central Los Angeles). For example, model neighborhood blacks are more negative about the quality of police protection they receive than are blacks in the county as a whole.

Alcohol Safety Action Project. In the spring of 1972, as part of LAMAS (LAMAS V), the Center conducted the first of four studies on drinking and driving behavior. Los Angeles is one of twenty-six cities in the United States in which this research is being conducted. The project is administered locally by the Alcohol Safety Action Project (ASAP), a consortium of public and private agencies concerned with problems arising from drinking and driving. A four-year research program in LAMAS is planned; in addition to providing descriptive data, we will attempt to evaluate the effects of an ASAP campaign to publicize the dangers of drinking and driving.

Health Care Needs Study. In the spring of 1973, as part of LAMAS (LAMAS VI), the Los Angeles County Department of Health Services and the Comprehensive Health Planning Council of Los Angeles County conducted a survey designed to assess the health status and physician-use patterns of county residents. The survey was undertaken so that county health professionals could generate estimates of frequency and types of illness; disability days; physician, dental, and mental health visits; unmet needs for health service; days of hospitalization; and use of public and private health, hospital, and mental health services. The data will be used to develop specific policy alternatives regarding the expansion, modification, and allocation of resources to current and future health delivery systems. A report of the findings and recommended policy decisions based on the data will be presented to the Los Angeles County Board of Supervisors.

TECHNICAL OPERATIONS

Sampling

The Survey Research Center has recently redesigned its sample of households in the Los Angeles metropolitan area, using the most current Census data. LAMAS utilizes a multistage, stratified probability sample with the following characteristics:

1. Los Angeles County is divided into ten geographic regions: (a) four regions in the city of Los Angeles; (b) one region composed of all unincorporated areas of the county; (c) one region that includes the city of Long Beach; and (d) four other regions: the western, southeastern, eastern, and northeastern municipalities.
2. Block groups in each region are stratified by housing value, percentage owner-occupied, and percentage nonwhite.
3. 100 block groups are sampled from the ten regions.
4. Two block clusters are drawn from each of the 100 block groups, and an address file of 40,000 dwelling units has been compiled. Household respondents are selected according to the method described in Leslie Kish, Survey Sampling, (Wiley, 1965), pp. 396-404.

The unclustered nature of the sample permits the Survey Research Center to oversample selected subpopulations (e.g., ethnic groups within LAMAS), as well as to undertake special studies of subpopulations within specified geographical areas of the county or city. (Additional charges for oversampling in LAMAS or special studies are arranged in conference with the individual investigator.)

Computer Sampling

The Survey Research Center has developed a general computer software package for sampling, using 1970 Census tapes. This package makes it possible to draw an area probability sample at reduced cost for any county in California as well as in the rest of the United States.

Field Operations

A. Procedures

Survey Research Center interviewers are well trained and closely supervised throughout the field process. For example, interviewers are assigned a list of dwelling units and required to select respondents from dwelling units, using strict probability methods; they have been specially trained in the use of this probability selection procedure, and results are closely monitored by central office supervisors. In addition, basic

interviewer training includes workshops and practice interviewing. All instruments fielded by the Center are subjected to a pretest process. Following a final briefing on a specific study, interviewers are permitted to take only one interview before returning to the office for a discussion with the field supervisors. Interviewers are requested to make three calls in order to secure a response, including night and weekend calls. Escorts are provided during unusual hours to maintain an acceptable response rate.

Every instrument is edited and checked for quality immediately upon its arrival at the Center to ensure completeness and accuracy. In addition, approximately 20 percent of the field staff's work is verified in ten-minute interviews with respondents, conducted by telephone when possible but at the homes of respondents when that is the only means by which they may be reached. The verification rate varies with the experience of the interviewer and the complexity of the instrument design and is always higher during the initial stage of a study.

B. Bilingual Research

The Survey Research Center has embarked on a special program for recruiting and training bilingual interviewers who work in the large Mexican-American community of Los Angeles. The Center provides Spanish-language versions of all materials, and interviews are always taken in Spanish when appropriate; bilingual supervisory and quality-control staff work closely with these interviewers.

Data Reduction

LAMAS data are reduced in two stages. In the first stage, precoded questions are edited and punched for analysis purposes on IBM cards from the questionnaire. The precoded questions are then passed on to the data processing section for analysis. This process considerably shortens the time required to produce output, and precoded questions are available for analysis within five weeks after completion of the field operation.

Open-ended questions are coded in the second stage. If the client has submitted open-ended questions, he or she is encouraged to consult with our coding section as they construct the coding frames. During the first week of coding, 100 percent of each coder's work is checked by the supervisor and independent work discussions are commonplace. Twenty percent of the open-ended questions are double-coded, and intercoder reliability figures are reported.

Data Processing and Analysis

Two campus computing facilities are available to the Center's data analysis and programming staffs. Both facilities house IBM system 360, model 91s, and are accessible from interactive terminals at the Center.

LAMAS data are processed using the Statistical Package for the Social Sciences (SPSS). This is a flexible, user-oriented, data manipulation package available for editing, screening, documenting, and transforming a data set

preparatory to making statistical analyses and is particularly useful for the analysis of survey data. Statistical analyses include correlation, nonparametric statistics, regression and multiple regression, Guttman scaling, and a fast factor analysis program.

For the cost of the initial question, the investigator will be given the following statistical output: frequency distributions ("marginals") of the results of the questions contributed by the investigator, and cross-tabulations of these questions by SEX, AGE, INCOME, EDUCATION, ETHNICITY or RACE, and OCCUPATION. *If the investigator has five or more questions, he or she may obtain the data with background variables in the form of punched IBM cards, card-image tape, or an SPSS system file.* Statistical analyses other than those mentioned above can also be performed at the request of the investigator at a negotiated additional cost. Second-, third-, and fourth-count U.S. Census data for the Los Angeles metropolitan area are concatenated with the individual-level data collected through LAMAS and can be provided to the client, again at a negotiated additional cost.

Aggregate Data and Survey Data

The Center has developed a software package for accessing DUALabs Census tapes which considerably reduces the costs of using Census data. The program will selectively decompress only those geographical areas and/or data tables specified by the user, bypassing data he does not want. In addition, the data can be output for processing through standard software packages available on campus (e.g., SPSS, BMD, DATATEXT). Census data combined with survey data from LAMAS expand the data base available to the client and can provide contextual information to complement survey data. In addition, aggregate and survey data can be combined so that relationships between these two levels of data can be examined.

SAMPLE QUESTIONS FOR ESTIMATING COST

ONE PRE-CODED QUESTION

Now, thinking back to your recent illnesses or injuries--in the past two months did you have any illness that kept you in bed, indoors or away from your usual activities?

yes 1
no 2

ONE PRE-CODED QUESTION WITH SEVERAL POSSIBLE RESPONSES

Do you have any of the following types of medical coverage or health insurance?

Blue Cross (Blue Shield) 1
Kaiser-Permanente 2
Ross-Loos 3
Equitable Insurance 4
Occidental 5
Medicare 6
Medi-Cal 7
other 8
SPECIFY: _____
none 9

PRE-CODED QUESTION LIST--ONE PART = 1/2 QUESTION, 2 PARTS = ONE QUESTION

We are interested in the way people are feeling these days. During the past few weeks did you ever feel:

	YES	NO	DON'T KNOW
A. pleased about having accomplished something?	1	2	8
<hr/>			
B. very lonely or remote from other people?	3	4	8
<hr/>			
C. that things were going your way?	5	6	8
<hr/>			
D. upset because someone criticized you?	1	2	8
<hr/>			
E. on top of the world?	3	4	8
<hr/>			
F. so restless that you couldn't sit long in a chair?	5	6	8
<hr/>			

	<u>YES</u>	<u>NO</u>	<u>DON'T KNOW</u>
G. bored?	1	2	8
H. proud because someone complimented you on something you had done?	3	4	8
I. depressed or very unhappy?	5	6	8
J. particularly excited or interested in something?	1	2	8

PRE-CODED SORT OPERATION--EACH PART = 1 QUESTION

You hear a lot of talk these days about what might happen if the population of the United States keeps growing. I have some cards here which have on them some of the things people say could happen if the population keeps growing. I would like you to read these cards and put them into three pockets: in one pocket, statements you think are true or probably true and in another pocket, statements you think are not true or probably not true. If you cannot decide about any of these statements, then put them in the pocket labeled "cannot decide." (HAND CARDS TO R. GIVE R TIME TO SORT.)

TIME BEGINNING: _____

TIME ENDING: _____

A. This country is large enough so that if we build new towns and cities out in the countryside there will be enough space for us even if the population gets much larger.

true 1
not true 2
cannot decide 8

B. If the population of the country gets much larger, air and water population problems will get much worse and will be very difficult to solve.

true 1
not true 2
cannot decide 8

C. If the country's population gets much larger, we will not have enough food to feed all the people.

true 1
 not true 2
 cannot decide..... 8

D. How large our population becomes has little to do with whether we can solve other social problems like poverty, crime and slums.

true 1
 not true 2
 cannot decide 8

E. Even if the population gets much larger, we can find ways to produce enough food to feed all of the people in this country.

true 1
 not true 2
 cannot decide 8

F. The number of people in a country does not have much to do with whether there is a pollution problem. Pollution is caused mostly by other things.

true 1
 not true 2
 cannot decide 8

G. Unless we do something to keep this country's population from getting larger, we will not be able to solve problems like poverty, slums and crime.

true 1
 not true 2
 cannot decide 8

H. If this country's population gets much larger, we will run out of use-able open space and have to live under very crowded conditions.

true 1
 not true 2
 cannot decide 8

ONE OPEN-ENDED QUESTION--NUMERIC RESPONSE, NO SURCHARGE

Since you first moved to the Los Angeles area, how many times have you moved from one house or apartment to another?

NUMBER OF MOVES: _____

ONE OPEN-ENDED QUESTION, SURCHARGE FOR DATA REDUCTION

Let's say that you are a driver. A traffic policeman stops you and claims that you have broken a traffic law. He wants to give you a ticket. What would you do?

ONE OPEN-ENDED QUESTION WITH RESPONSE DESIGNATIONS: TWO DESIGNATIONS = ONE QUESTION: EACH ADDITIONAL DESIGNATION = 1/2 QUESTION, SURCHARGE FOR DATA REDUCTION

Now, thinking about problems we have here in Los Angeles area (city and county): What do you think are the most important problems we have here in the Los Angeles area?

- (1) _____
- (2) _____
- (3) _____
- (4) _____
- (5) _____
- (6) _____

PRE-CODED RATING SCALE--EACH PART = 1 QUESTION

Now, from what you have just heard, how honest or dishonest a businessman would you say this car dealer is? Here is a card with "very dishonest"--number one--at one end, and "very honest"--number seven--at the other end. You may use any number on the scale. Would you look at this scale and tell me which number comes closest to how you feel?

A. Please tell me which best represents how honest or dishonest you feel the car dealer has been:

Very dishonest 1 2 3 4 5 6 7 Very honest

B. Now, here is another card which has another scale. Tell me a number which best represents how wise or foolish you think the car dealer is.

Very wise 1 2 3 4 5 6 7 Very foolish

C. Here's another card: how unyielding or yielding would you say the car dealer is?

Very unyielding 1 2 3 4 5 6 7 Very yielding

D. How cooperative or competitive would you say the car dealer is?
Very cooperative 1 2 3 4 5 6 7 Very competitive

E. And how unfair or fair?
Very unfair 1 2 3 4 5 6 7 Very fair

F. And how hard or soft would you say this car dealer is?
Very hard 1 2 3 4 5 6 7 Very soft

G. How active or passive would you say he is?
Very active 1 2 3 4 5 6 7 Very passive

H. And finally, how selfish or generous would you say this man is?
Very selfish 1 2 3 4 5 6 7 Very generous

ONE PRE-CODED QUESTION AND ONE OPEN-ENDED QUESTION, WITH SURCHARGE

Suppose the number of people in the Los Angeles area were twice as large as it is today--suppose there were fourteen million people in this area, instead of seven million. Do you think your own life would be different if there were twice as many people living in the Los Angeles area or do you think your own life would be about the same as it is today?

different..... ASK A..... 1
same as now..... 2

A. How would it be different?

SPECIAL SURCHARGES

The LAMAS staff will negotiate specific surcharges under the following conditions:

1. Complex and/or lengthy questions with a number of response options.

2. Computer rotation of a question or questions (e.g., Question X to be asked of half the sample, Question Y to be asked of other half).
3. A question or questions which require the interviewer to read extended information before eliciting a response.

Survey Costs and Economies of Scale

The costs of research in major metropolitan areas are rising at a time when the need for data on urban areas is both urgent and increasing. Costs for independent surveys range from \$50 to over \$100 per case. Highly clustered samples do not save costs, have little flexibility, and can be challenged in terms of their capacity to represent a large, heterogeneous area such as Los Angeles County. Highly unclustered samples provide better coverage of the population but are quite expensive. The LAMAS sample is moderately unclustered and survey costs are reduced because of economy of scale. For example, a \$10,000 input to LAMAS will provide data at an average cost of \$10 per case for a sample of 1,000. As mentioned above, the investigator receives marginals on all his data as well as cross-tabulations with major background variables. The LAMAS staff continuously monitors the quality of information obtained from these background questions (e.g., occupation, education, income) and will modify them to increase their reliability and validity. Such work saves the investigator time in question construction and instrument evaluation and provides high-quality data to relate to his variables of interest.

COST SCHEDULE

Number of Questions (Precoded)	Questions to be Asked of Total Sample	Questions to be Asked of Predetermined Major Sub- populations*
1	\$ 600 - \$ 800	\$ 480 - \$ 600
2	\$1200 - \$1600	\$ 960 - \$1200
3	\$1800 - \$2400	\$1440 - \$1800
4	\$2400 - \$3200	\$1920 - \$2400
5	\$2820 - \$3700	\$2150 - \$2820
Each additional pre- coded question	\$ 450 - \$ 500	\$ 360 - \$ 450
Surcharge for each free response or open-ended question	\$ 300 - \$ 500	\$ 240 - \$400

*Must be predesignated in interview schedule, e.g., Los Angeles
city residents only, men only.

SPECIAL LAMAS CONSULTATION

The costs outlined above are designed to cover the fielding, editing, coding, cleaning, and processing of a fully developed set of questions submitted by the client. Center staff are available on a consulting basis to clients who need or would like special assistance with the developmental aspects of their research. In this case, the client will deposit an additional amount with the Center, apart from question costs as outlined above, to be used for special developmental purposes.

For further information, call LAMAS director at (213) 825-0711.

SUBJECT: The Truth about LAMAS Field Dates

After much head-scratching, soul-searching, and digging in the musty-dusty files of the Field Office, we are proud to announce that we have assembled the "true" facts (as opposed to facts based on dim memory and/or guesses) about all LAMAS field dates. This memo will supercede all previous memos about field dates so clean out your files, folks! Ready or not, here it comes:

- LAMAS I : May 14, 1970 to July 10, 1970
- LAMAS II : November 4, 1970 to January 20, 1971
- LAMAS III : April 15, 1971 to June 12, 1971
- LAMAS IV : October 12, 1971 to January 15, 1972
- LAMAS V : March 13, 1972 to May 29, 1972
- LAMAS VI : February 5, 1973 to March 20, 1973
- LAMAS VII : October 22, 1973 to December 17, 1973
- LAMAS VIII : February 11, 1974 to March 20, 1974

Stay tuned to this station for results on the ninth race of LAMAS.

LAMAS IX . 9/16/74 - 12/2/74

A. During the month of November, 1974, the Survey Research Center will be conducting a special study of married women aged 18 to 49. The interview will take about thirty minutes. May we return to interview (you)/(a woman in your household) during that time?

- YES..... 1
- NO..... 2
- DON'T KNOW..... 8

INTERVIEWER: GO TO PAGE 24 AND COMPLETE ITEMS AFTER LEAVING THE HOUSEHOLD.

CARDS FOR REVISED FAMILY INCOME QUESTION: LAMAS IX

CARD # A

- A. Less than \$2000
 - B. \$2,000 to \$2,999
 - C. \$3,000 to \$3,999
 - D. \$4,000 to \$4,999
 - E. \$5,000 to \$5,999
 - F. \$6,000 to \$6,999
 - G. \$7,000 to \$7,999
 - H. \$8,000 to \$8,999
 - I. \$9,000 to \$9,999
-

CARD # B

- J. \$10,000 to \$10,999
- K. \$11,000 to \$11,999
- L. \$12,000 to \$12,999
- M. \$13,000 to \$13,999
- N. \$14,000 to \$14,999
- O. \$15,000 to \$16,999
- P. \$17,000 to \$19,999
- Q. \$20,000 to \$24,999
- R. \$25,000 to \$29,999
- S. \$30,000 or over

A1. INTERVIEWER: _____ I.D. _____ 29-31/____

A2. TIME BEGINNING: _____ AM _____ PM TIME ENDING: _____ AM _____ PM # OF MINUTES: _____ 32-34/____

Good morning/afternoon/evening. I'm from the UCLA Survey Research Center. You may have received a letter from our Center telling you about the survey we are doing in Los Angeles. We are interested in finding out how people in the Los Angeles Metropolitan Area feel about the community, what problems there are and what is needed for the future.

Your opinions are very important because you have been chosen scientifically to represent hundreds of other people in Los Angeles. The more people who cooperate, the more successful we can be in reporting the needs of all the people in this city. Everything you tell us will be strictly confidential. Your name will not be connected in any way with the findings of this important study.

A3. First, I would like to make a list of the persons 18 years old or over, who live here as members of your household. This will tell me which adult I am to interview. (AFTER RECORDING INFORMATION IN "A", ASSIGN NUMBERS IN "E" WITH OLDEST MALE = 1, SECOND OLDEST MALE = 2, ETC. AFTER ALL MEN ARE NUMBERED, CONTINUE WITH WOMEN BEGINNING WITH OLDEST TO YOUNGEST.)

BEGIN

(YOU WILL NOW KNOW WHICH ADULT IN THE HOUSEHOLD YOU ARE TO INTERVIEW. IF THAT PERSON TO BE INTERVIEWED IS THE SAME PERSON AS THE "INITIAL CONTACT" YOU ARE ALREADY TALKING TO, ASK QUESTION A4. IF IT IS NOT THE SAME PERSON, ASK QUESTION A5.)

A4. In checking my sampling table, I see that you are the person I am supposed to interview in this household. For the last part of this section, then, would you give me some information on those persons under 18 years old who are living here as members of your household? Please begin with the youngest person.

A5. In checking my sampling table, I see that the person I am supposed to interview is _____. But before I turn to that interview, would you give me information like before on those persons under 18 years old who are living here as members of your household? Please begin with the youngest person.

List 5

Q22C. How often are you supposed to take/do this?

Deck 04, cols. 27-28

IF cols. 24-25 are coded 01-09 use the following code:

01 - Daily

IF cols. 24-25 are coded 20-29 use the following codes:

21 - two or more times a day

22 - once a day; everyday -- # of times not specified

23 - two or more times a week

24 - once a week

25 - less than once a week but more than once a month

26 - once a month

27 - less often

28 - "as needed"

97 - Ref.

99 - N.A.

LAMAS IX

LIST 6

Q22E. Could you tell me why you haven't been following the doctor's advice?

Deck 04, cols. 30-31

PROBLEMS WITH THE REGIMEN:

- 01 - Medical advice insufficient or unclear
- 02 - Medical advice (regimen) too difficult or unpleasant: hurts too much, took too much time, don't like, side effects
- 03 - Regimen too expensive: pills cost too much, haven't got the facilities, and can't hire them, can't afford vacation

PROBLEMS WITH THE PATIENT:

- 04 - Patient doesn't believe advice (information) to be helpful: Just doesn't believe M.D.'s advice; others giving alternate advice and/or denigrating regimen. Isn't getting better and therefore feels regimen not working.
- 05 - Patients likes proscribed behavior too much: likes to drink, smoke, eat. (positive references to proscribed behavior)
- 06 - Lack of motivation: I forget, I'm too lazy, no will power.
- 07 - Other

LIST 7

- Q 43 A. What did you plan to do ?
 Q 46 What other actions would you be likely to take ?
 Q 48 What did you do ?
-

Deck 05 Cols. 31-32, 33-34, 35-36

Deck 05 Cols. 48-49, 50-51, 52-53

CODE FIRST THREE MENTIONS

Deck 05 Cols. 62-63, 64-65, 66-67

PREVENTION / INTERVENTION

- 01 Take keys away, "lose keys", "hide keys"
 02 Disable vehicle, E.g., "Take coil wire out."
 03 Use force, physically restrain them
 04 Call the police
 09 Other prevention ,intervention actions

OTHER MEANS OF TRANSPORTATION

- 10 Drive for them/ Take them home myself/ talk them into letting me drive
 11 Find someone to drive them/ Get spouse to drive
 12 Call a taxi
 13 Take public transportation
 19 Other transportation remedies; E.G, "Leave them stranded, so will have to find alternate means "

TIME FACTOR

- 20 Make them stay one hour per drink, etc., delay until ready to drive
 21 Suggest they sleep it off, get them to bed
 22 Limit time (length) of party
 23 Stop serving alcohol after a certain hour
 29 other time factors

LODGING

- 30 Offer lodging, overnight accommodations
 31 Check into a motel
 39 Other lodging, "keep him at home"

List 7. (cont'd)

FOOD

- 40 Serve food or coffee with drinks
- 41 Give them food/ coffee (to lessen the effects of alcohol)
- 49 Other food remedies; E.g., " give mayonnaise type food, give milk "

COMMUNICATION / VERBAL PLEAS

- 50 Tell them they've had enough, talk them out of driving
- 51 Tell relatives, spouse when person had enough ; get relatives to talk to them
- 52 Emphasize dangers, safety aspects
- 53 Other communication or pleas, including arrest stories, etc.

LIMITATION OF ALCOHOL CONSUMPTION

- 60 Limit number of drinks or amount of alcohol available, "hide or remove alcohol"
- 61 Weaken drinks (lessen alcohol content)
- 62 Serve punch, other non-alcoholic beverages
- 63 Dont serve alcohol

Influence

- 70 Refuse drinks myself

SOBERING TECHNIQUES

- 80 Give them a shower
- 81 other specific sobering techniques; e.g., "ice packs on head, " take outside for fresh air"
- 82 TRY to sober them up - no specific method mentioned
- 83 other physical or spiritual aid, e.g., "pray for them"
- 90 None, no other actions (CODE FOR Q 46 ONLY, Reject cols. 50-51,52-53)
- 97 Refused
- 98 dont know
- 99 N.A.

REJECT COLS. } 33-34, 35-36
 } 50-51, 52-53
 } 64-65, 66-67

List 8 & 9

- Q 43 B Could you tell me why you haven't thought about doing this?
 Q 47 B Why didn't you do anything ?

Deck 05 Cols. 37-38, 39-40, 41-42 CODE FIRST THREE MENTIONS
 56-57, 58-59, 60 -61

- 01 None of my business/ Not my place to interfere
 E.g, "People know their tolerance levels," O.K., as long as he could drive
- 02 Skepticism: Won't do any good to take action because person couldn't be helped. E.g., Drinkers are too stubborn; they don't listen.
- 03 Afraid to get involved for fear of negative reaction from the drinker or others
 E.g., ...you only create antagonism
- 04 Respondent unable to help the person. E.g, We were both "wiped out"
 "I'd been drinking too"
- 05 Drinker(s) don't/ didn't want or need help / R rebuffed by drinker
 "You can't help them if they don't want to be helped"
- 06 I don't serve drinks, don't drink, limit alcohol consumption at party
- 07 Limited contact with (heavy) drinkers (friends, relatives)
- 08 Haven't had the occasion/ Haven't been in that situation, don't go to parties with drinks
- 09 R would do/did do something but no planning involved
 E.g, I just took over the wheel when my husband drank, but did not plan ahead
- 10 No way to plan actions
 E.g, so many variables in a situation that it would be hard to plan ahead of time
- 90 Never thought about it (Reject cols. 39-40,41-42 / 58-59, 60-61)
- 96 Other : MAKE CARD
- 98 D.K. } REJECT COLS. 39-40,41-42
 99 N.A. } 58-59,60-61

List 10

Q 49 Why did you do it?

Deck 05 Cols 68-69, 70-71, 72-73

CODE FIRST THREE MENTIONS: READ ENTIRE RESPONSE TO DETERMINE CODEABLE MENTIONS

- 01 R concerned for drinker's life, safety
 E.g. "Don't want to see him killed."
 E.g. "Afraid he'd get into an accident."
- 02 R concerned for the safety of others; concern that he would cause an accident. (Code any combinations of R, drinker, spouse/family and others here. If only R mentioned code as 04. If only spouse or family mentioned code as 03.)
 E.g. "He might kill himself or others, including me."
 E.g. "So there wouldn't be an accident."
- 03 R concerned for drinker's spouse, family's safety (Specific mention)
 E.g. "Had his family with him and they would be in danger."
- 04 R concerned for own safety (Specific mention of R's safety)
- 05 General concern, "worried" (No specific mention)
- 06 For safety reasons, (No specific mention)
- 10 R felt it was his duty, obligated
 E.g. "Felt socially responsible for him as we were together"
- 11 Closeness of R's relationship with drinker as friend/relative
 E.g. "Because they're friends, we like them"
- 12 R's general feeling of compassion or "feeling sorry" for drinker, not clear if friend
 E.g. "My compassion for him. Felt sorry for him because he is my neighbor."
- 13 To prevent legal hassles: arrest, ticket, police problems, etc.
 E.g. "To prevent him from getting picked up by the police."
- 14 R afraid drinker would get into trouble, (No specific mention)
 E.g. "Didn't want him to get in trouble"
- 15 Drinker too drunk to drive; incapable of driving.
 E.g. "He was so drunk, unable to stand up."
 Criticism of drinker's driving ability when drinking
 (when no alcohol mentioned - code 96)

List 10 (cont'd)

- 20 Financial reasons, costs alot if wrecks the car; *cost of legal Aid*
- 21 Concern for property, damage to car
E.g. "Worried about him wrecking the car"
- 30 To help drinker get sober
E.g. "Thought the coffee would help him get sober faster"
-

- 96 Other - MAKE CARD
E.g. "Because it was a sensible thing to do"

INTERVIEWER'S NAME: _____

DATE: _____

INTRODUCTION

The purpose of this study is to find out what people think about their medical care. There are many different things involved in good medical care. We know that there are some things about medical care that people are happy with. However, we also know that there are other things about medical care that people are unhappy with.

Regardless of whether you are generally satisfied or generally dissatisfied with your medical care, we are interested in finding out what things you feel are good and what things you feel are bad about the medical care you can get. Since we know that there are both good and bad things about medical care, it is very important for us to learn more about them. That is why your opinions are very important.

We want to stress that the way a particular person answers will not be shown to anyone. Your answers will be combined with the answers of many other people. No one will be able to tell how any single person filled out this questionnaire.

Start Time: _____ AM
PM
End Time: _____ AM
PM

Measuring Health Concepts
Project HSM 110-72-299

DIRECTIONS:

On the next few pages, you will find statements about different aspects of medical care. We would like to know whether you agree or disagree with each statement so that we can learn which things people think are good and which are bad. Try to think about the care you are now getting as you respond to each statement. When you cannot respond to a statement from your own experience, respond to what you would expect on the basis of the other medical care you now get. For each statement, we want to know how much you agree or disagree with what is said. There are no right or wrong answers. We just want to know your opinion. Again, we want you to know that your answers will not be revealed to anyone.

The following example will help you to answer these statements.

Example:

Suppose one of the statements was, "Ambulance service is too expensive."

If you Strongly Disagree that "Ambulance service is too expensive," then you would place your X mark like this:

Ambulance service is too expensive.				
:	:	:	:	:
Strongly	Agree	Uncertain	Disagree	Strongly
Agree				Disagree
				X

If you Strongly Agree, Agree, Disagree, or are Uncertain that "Ambulance service is too expensive," then you would put your X mark above the word(s) which comes closest to saying what you think.

IMPORTANT:

(1) Place your mark in the middle of the spaces provided.

:	:	:	:	:
	X		X	
	THIS		NOT	
			THIS	

(2) Be sure you answer each statement -- do not leave any out.

(3) Never put more than one X mark for a single statement.

Mark the items fairly quickly. Do not worry or puzzle over individual items. It is your first impressions, the immediate thoughts or feelings about the item that are important. On the other hand, please do not be careless, because we want your true feelings.

1. I'm very satisfied with the medical care I receive.
: _____ :
Strongly Agree Agree Uncertain Disagree Strongly Disagree
2. Doctors let their patients tell them everything that the patient thinks is important.
: _____ :
Strongly Agree Agree Uncertain Disagree Strongly Disagree
3. Doctors ask what foods patients eat and explain why certain foods are best.
: _____ :
Strongly Agree Agree Uncertain Disagree Strongly Disagree
4. I think you can get medical care easily even if you don't have money with you.
: _____ :
Strongly Agree Agree Uncertain Disagree Strongly Disagree
5. I hardly ever see the same doctor when I go for medical care.
: _____ :
Strongly Agree Agree Uncertain Disagree Strongly Disagree
6. Doctors are very careful to check everything when examining their patients.
: _____ :
Strongly Agree Agree Uncertain Disagree Strongly Disagree
7. We need more doctors in this area who specialize.
: _____ :
Strongly Agree Agree Uncertain Disagree Strongly Disagree
8. If more than one family member needs medical care, we have to go to different doctors.
: _____ :
Strongly Agree Agree Uncertain Disagree Strongly Disagree
9. Medical insurance coverage should pay for more expenses than it does.
: _____ :
Strongly Agree Agree Uncertain Disagree Strongly Disagree

INTRODUCTION

The purpose of this questionnaire is to find out how you feel about your health. THERE ARE NO RIGHT OR WRONG ANSWERS. We just want to know how true each health statement is for you.

We would like you to tell us whether you think statements are true or false. Again, remember, there are no right or wrong answers. We simply want you to tell us what you believe.

Example:

Suppose one of the statements was, "People today are healthier than they used to be."

If you feel that this statement is mostly true, then you would place your X mark like this:

People today are healthier than they used to be.				
:	:	X	:	:
Definitely	Mostly	Don't	Mostly	Definitely
True	True	Know	False	False

If you feel that "People today are healthier than they used to be" is Definitely True, Mostly False, Definitely False, or just Don't Know, then you would put your X mark above the word(s) which best describes what you believe.

Please mark an answer for each statement, but check only one answer for each.

DECK 08

1. According to the doctors I've seen, my health is now excellent.

Definitely True	Mostly True	Don't Know	Mostly False	Definitely False
-----------------	-------------	------------	--------------	------------------

17/ —
HLTH 01

2. I try to avoid letting illness interfere with my life.

Definitely True	Mostly True	Don't Know	Mostly False	Definitely False
-----------------	-------------	------------	--------------	------------------

18/ —
HLTH 02

3. I seem to get sick a little easier than other people.

Definitely True	Mostly True	Don't Know	Mostly False	Definitely False
-----------------	-------------	------------	--------------	------------------

19/ —
HLTH 03

4. I think my health will be better in the future than it is now.

Definitely True	Mostly True	Don't Know	Mostly False	Definitely False
-----------------	-------------	------------	--------------	------------------

20/ —
HLTH 04

5. When I'm sick I try to keep it to myself.

Definitely True	Mostly True	Don't Know	Mostly False	Definitely False
-----------------	-------------	------------	--------------	------------------

21/ —
HLTH 05

6. I have been in bed a lot in the past because of illness.

Definitely True	Mostly True	Don't Know	Mostly False	Definitely False
-----------------	-------------	------------	--------------	------------------

22/ —

END DECK 08

INSTRUCTIONS

On the next page are 18 values listed in alphabetical order. Your task is to rank them in order of their importance to YOU, as guiding principles in YOUR life.

Study the list carefully and pick out the one value which is the most important for you. Place a number 1 next to it.

Then pick out the value which is second most important for you. Place a number 2 next to it. Put a number 3 next to the value which is the third most important to you. Number 4 goes next to the value that you rank the fourth most important. Continue in this way -- putting 5 next to the fifth most important, 6 next to the sixth most important, and so on, until you have used all of the numbers from 1 - 18.

Please remember that each of the numbers from 1 to 18 may be used only one time. The value which is the least important should have the number 18 next to it, the one which is next to the least important should have 17 next to it, and so on.

Work slowly and think carefully. Most people change their mind about the importance of the values as they go through the list. Please feel free to change your mind about the number you give to a particular value. Simply erase or cross out any number you want to change. The end result should truly show how you really feel.

A COMFORTABLE LIFE
(a prosperous life) _____

BEGIN DECK 09
7-8/ VALUE 01

AN EXCITING LIFE
(a stimulating, active life) _____
